No.6, MunuAdhi Nagar, Sankarapuram, Near Walajabad,

KanchipuramDist – 631 605. Ph: 044 – 2729 0096

### **International Student's Leadership Programme (ISLP)-Malaysia**

*8 Mar 2017 to 12 Mar 2017*

Adhi College of Engineering and Technology organized a four day international visit to Malaysia from 8 Mar 2017 to 12 Mar 2017. In which various discipline students have participated. Dr.A.Devaraju, Principal and Dr.Gayathri monicka Subarnan, Associate Professor, EEE accompanied the students in this ISLP Visit.

#### *The details of the visit as follows:-*

##### *Day 1:(8 March –Wednesday)*

We departed from Chennai airport via Malaysia airlines towards Malaysia at 11.45 am. We arrived Kuala Lumpur International airport, Malaysia at 6 pm. After immigration, we reached the GDS hotel around 8 pm. We are welcomed by Mr.Chandra Sekar CEO, Ms.Suguna Director, Edu India. We had a dinner in Chinese restaurant, its quiet different experience of have their food.

##### *Day 2:(9 March –Thursday)*

We visited APU (Asia Pacific university of Technology and Innovation) University at 9.30 am. Mr. Padmanathan, Senior Professor had an interaction with the students and talked about the history of Malaysia.

### *Interaction with APU university faculties*

Mr.Arun seeralan, Lecturer in Faculty of Engineering and Technology (Origin from India) took a campus visit. First we started from auditorium of the college at 4 floors. The ambient of the auditorium and their infrastructure is extraordinary.

*Students Interaction with Mr.Arun*

*News & Hot Gallery at Library*

*Library at APU University*

Later we were taken to the training area at the G3 where prototypes of important parts of robot, like arduino, raspberry software tool were explained in detail by Mr.Arif. Our students had an interaction with the foreign students from Vietnam and Dubai.

*Robotics Lab*

Next we moved to the various department lab and were taken to the training area where prototypes of important parts of car, propeller etc were kept for display. The student of their college explained about the importance of solid works software to mechanical students. The students will make the own model and gift the model to the university staffs. We didn't see the placement cell in the university. The students are insist to have an internship programme during III year for a period of three month and placed on their own. APU faculty emphasized the importance of planning for the project work and research opportunities. The students gained knowledge about the various working environment.

### ***Highlights of APU University:***

- **Compete with foreign country.**
- **More than 100 students studying from foreign countries.**
- **Every 6 month - Initiative in syllabus updating.**

### ***Industrial visit at Proton***

After lunch we proceeded to industrial visit Proton at 2.30 pm which is major leading Car manufacturers with five star standards in Malaysia.

Proton aspires to build cars with the highest safety standards. Reinforced safety structure provides rigidity to protect occupants in a crash event. Provides maximum protection to occupants and it gives integrated active safety to drivers including electronics stability control, ABS with more Horse power. We were taken through the assembly line .We got an opportunity to see various engine model in the display section.
